## NOTES FROM THE PASTOR

After December and celebrating Christmas, we await our next chance to find joy in a holiday. February was Black History Month and March is known as Women's History Month. Celebrate these, or don't, that is up to you. However, people deserve to be honored, called "beloved" and praised for their positive gains in our common history that has brought so much goodness to our lives, society and culture, today.

March is also Clergy Spouse Appreciation Month (this isn't a joke and was previously called "Pastor's Wife Appreciation Month", as you know that isn't always applicable these days). So I'm choosing joy and celebrating my partner and team-mate. Not everyone's spouse is given a special month but there are some pieces of a clergy family dynamic that people who aren't in it, won't understand. My call and ability to serve this congregation is directly connected to a very special person in my life, that I appreciate very much. So, if you happen to see Stephen, sometime this month or a different month, I invite you to share in this gratitude.
